

Mighty Magnificent Motu River Wilderness trip.

Hi Guys,

This is to those who missed the Motu trip.

As you know we had organised a trip into the Motu River over labour weekend, yes just last weekend and we had a **blast**.

7 Adults and 4 boys aged from 8 to 12 yrs, every one had a fantastic time from the Jet boat trip up river to building Hugh campfires and fishing. And much much more.

Everyone had a go on either sit-on or white water kayaks and on the raft, which transported all the camping gear and food.

Camping under the stars where the closest source of power is more than 20 km's away you get to see stars and constellations that you only read about, the milky way is so clear you can imagine Spock and Scotty from Star trek getting ready to beam something up or down.

The fires on the river side would need more permits that you can poke a stick at and you would need to have a fire truck on handy just in case, not on the Motu. Now, the Kids built these, did a fantastic job and had lots of fun doing it. Baked potatoes in the hot embers followed by toasted marshmallows and hot chocolate.

If I tell you any more you will not need to come on the next trip as you can imagine it for your self, so check out the photo album and should you join us on one of these trips you will feature in the album and get your own slide show you can show on your TV thru the DVD player we will even put a sound track on it to remind you of the trip.

We will have this info on our web site very soon. I will send you the link as soon as the web design team have this available. When you see this you will want to come on the next trip. The options will be either over night or 2 nights on the river.

Over night is a little more action and less time to soak in the true ambiance of why you are there as this is wilderness at its best and to rush up the river then turn around and paddle back out is fantastic, but to spend the extra time to really get in tune with the true remoteness of this will blow your sox off.

As we offered this to you at the outset and many of you replied very quickly either way, and we are committed to keep the deal consistent in that we are going to keep the price to you as our wholesale price, yes covering our costs to run this.

Our next trip is scheduled for the end of November and one over the Xmas NY period which we have a few confirmed already coming from overseas for this.

So check out the photo album and either call or book online.
